Graduated in May 2008 from Carthage College with a BFA in Graphic Design.

Professional Experience

2007 - Today

Creative Designer & Web Developer **@ ATOXICDREAM DESIGN**

Design, web, and photography started off as hobbies, and I never considered contract work seriously until my senior year of college. I opened my Etsy shop in 2011 which is still in operation to this day, and as of Jan 2016, I am a contractor for several clients in the South/Southeast Wisconsin area.

May 2015 - Today

Marketing Manager & Bookkeeping **@ KENEBULA RECORDS AND PRODUCTIONS**

I help manage all the social media accounts, photography/video, and bookkeeping. Frequent travels to other southeast Wisconsin cities are necessary for meetings, networking, and live festivals and events.

2013 - Dec 2015

Front End Web Developer **@ SOCIALBITS, INC.**

I worked with a team of nine to jump start a new type of social media. Work was done remotely with a few scheduled meet-ups in Chicago where SocialBits was based in. The SocialBits website used the MVC framework, and I handled mostly the views in PHP, HTML5, CSS3, and JavaScript.

Jun 2009 - May 2012

Advertising Manager **@ MOSQUITOE GALLERY**

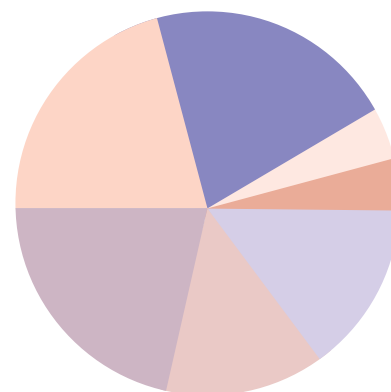

I handled internet advertising and helped with talent booking and event coordination. I designed literature, advertising material, and maintained the Mosquitoe website and social networking pages.

Feb 2008 - jun 2012

Creative Designer / Graphics Production Manager **@ 3DL DESIGN, INC.**

I designed, produced, and managed graphics for tradeshow booths and retail displays. In 2010, I started handling the web development projects, assisting in the UIUX development of PromoteHD™, a marketing app created by 3DL Design.
